described on its first publication in 1967 as a scholarly account of Australian music that is also entertaining social history Roger Covell's Australia's music themes of a new society has become a classic of Australian music history for its beautifully written explorations of almost two hundred years of music making across classical indigenous and Anglo-Celtic traditions this revised edition including more than sixty musical examples is supplemented by a new postscript written by the author

politics society and the media is the first comprehensive political sociology of the media to be published in Canada Paul Nesbitt Larking draws upon a range of disciplines including cultural and media studies political economy social theory and political science to provide an analysis of the relationship between power and representation in

canada the framework for the book presents a model of the mutual interaction between politics and the media attention is focused in the early chapters on how cultural ideological economic and governmental forces shape and condition the production of media in canada chapters on the work of innis grant mcluhan and their postmodern successors place the evolution of mcluhan s theoretical argument that the medium is the message at the heart of the book canadian identity and how to understand canadian media politically is the subject of a chapter on textual analysis two extensive chapters follow on the media s influence and effects on politics in addition to standard topics on politics and the media this new edition offers much more an examination of the media on the politics of gender and aboriginal peoples the micro politics of the media workplace and an exploration of important media related considerations throughout reference is made to relevant and compelling issues placed within the context of media theory

everyone can benefit from having some understanding of environmental science and the chemistry underlying issues such as global warming ozone depletion energy sources air pollution water pollution and waste disposal environmental chemistry in society second edition presents environmental science to the non science student specifically focusing on environmental chemistry yet requiring no background in chemistry this book is a self contained text offering all the information necessary for readers to understand the topics discussed it provides a foundation in science chemistry and toxicology including the laws of thermodynamics chemical bonding and environmental toxins this information then allows readers to delve into environmental topics such as energy in society air quality global atmospheric concerns water quality and solid waste management the arrangement of the book allows instructors flexibility in how they present the material with the crucial topics being covered first this second edition had been updated throughout and contains the following revisions addition of a glossary of important terms extensive revision of the discussion questions at the end of each chapter to require more critical thinking skills updates to the environmental data the division of the foundational chapter on chemistry into two chapters so each one is more palatable

coverage of fracking the fukushima nuclear disaster and the 2010 gulf oil spill the book provides a qualitative approach presenting the chemistry of the environment in such a way that students who have little or no science background can gain understanding and appreciation of this important subject

vols for 1933 include the societys farmers guide to agricultural research
