assessment and accountability are now inescapable features of the landscape of higher education and ensuring that these assessments are psychometrically sound has become a high priority for accrediting agencies and therefore also for higher education institutions bringing together the higher education assessment literature with the psychometric literature this book focuses on how to practice sound assessment this volume provides comprehensive and detailed descriptions of tools for and approaches to assessing student learning outcomes in higher education the book is guided by the core purpose of assessment which is to enable faculty administrators and student affairs professionals with the information they need to increase student learning by making changes in policies curricula and other programs the book is divided into three sections overview assessment in higher education and case studies the central section looks at direct and indirect measures of student learning and how to assure

the validity reliability and fairness of both types the first six chapters the first two sections alternate chapters written by experts in assessment in higher education and experts in psychometrics the remaining three chapters are applications of assessment practices in three higher education institutions finally the book includes a glossary of key terms in the field a co publication with aac u and air

demands for quality at all levels of education are higher than they have ever been making clear what students must learn is being stressed by federal and state governments and by professional and national accreditation organizations this book is designed to help faculty and institutions of higher education meet these demands by obtaining managing using and reporting valid outcome attainment measures at the course level and mapping outcome attainment from the course level to departmental degree program and institutional levels and beyond it demonstrates how to communicate clearly what students are supposed to know and be able to do write assessments that measure the expectations and produce test scores that are valid for their intended use and interpretation so that valid inferences can be made about students and programs it is a how to manual that is rich with guidelines model forms and examples that will lead the reader through the steps to connect the dots from outcomes assessment to outcomes based reporting this new edition incorporates several enhancements including additional examples tables and figures that help clarify and expand the three level outcomes and assessment model a new chapter 9 introduces a census approach to obtaining outcome attainment measures at the program and institutional levels and shows how to link outcome values to outcome statements from outside sources such as national and professional organizations chapter 9 concludes with a discussion on obtaining and using outcome attainment values at the student level with the aid of modern technologies

this book is a step by step guide for improving student learning in higher education the authors argue that a fundamental obstacle to improvement is that higher educators administrators and assessment professionals do not know how to improve student learning at scale by this they mean improvement efforts that span an entire program affecting all affiliated students the authors

found that faculty and administrators particularly struggle to conceptualize and implement multi section multi course improvement efforts it is unsurprising that ambitious wide reaching improvement efforts like these would pose difficulty in their organization and implementation this is precisely the problem the authors address the book provides practical strategies for learning improvement enabling faculty to collaborate and integrating leadership social dynamics curriculum pedagogy assessment and faculty development in chapter 2 the authors tell a program level improvement story from the perspective of a faculty member chapter 3 inverts chapter 2 beginning from the re assess stage the authors work their way back to the individual faculty member first pondering whether she can do something to impact students skills they peel back each layer of the process and imagine how learning improvement efforts might be thwarted at each stage chapters 4 through 9 dig deeper into the learning improvement steps introduced in chapters 2 and 3 each chapter provides strategies to help higher educators climb each step successfully chapter 10 paints a picture of what higher education could look like in 2041 if learning improvement were embraced and finally chapter 11 describes what you can do to support the movement
